

I BEGIN WITH

THE ART IN MIND

If your life is as busy as mine, then you know how quickly images sitting on your computer get forgotten. Why invest in professional photography if you don't have something solid to show for it in the end?

Did you know that images on display for your children to see improves their sense of belonging, raises self-esteem, and instills security in their family unit? Pretty important right!

My goal for every session is to create art that is not only beautiful, but makes you feel something. I know you've heard it a million times, but these moments really do pass by in an instant.

I can't stress enough how important it is that you take the time to document each step of the way. I promise you will be forever thankful that you did.

“

If you are thinking about booking a session with Lindsay, don't hesitate. You will be elated with each image! Lindsay is an insanely gifted artist, and has the patience of a saint!”

-Margot B.

CREATE A PACKAGE

Most photographers only have set packages to choose from, or you get shown a crazy long list of options. You are left feeling overwhelmed with too much to think about, or without much choice at all. Instead, I have decided to let my clients create their own packages!

There are only two steps to make this happen:

#1. Choose your tangible art.

#2. Choose how many digital images you want.

It's that easy!

You can buy just your digital files only without the package pricing. This is an option only offered 'A la carte'.

(Sales tax will be added on to all purchases per CA law.)

CREATE A COLLECTION

1. CHOOSE DIGITAL IMAGES

All Digital Files (20) \$1500
(Hand edited to perfection.)

8 Digital Files \$1000
(Fully edited Images)

2. CHOOSE YOUR ART

Wall Portraits begin at \$475
(Museum quality art pieces in various sizes and finishes.)

Memory Boxes begin at \$1500
(Italian leather or solid wood finish. Includes
fine art matted prints.)

*Digital files are delivered the day of your ordering
appointment after full payment is made.*

Selecting two products is the minimum required to make a package, but there are no limits to what you can buy beyond that!

**WHAT SIZE
IS BEST?**

Knowing what will fit in the space you are planning for is key to creating an art series that shines.

- 1. Select the right images for the sizes you are choosing. Big prints look better with full body images, and smaller sized prints look better with more zoomed in shots.*
- 2. Measure your space. You'd be surprised how big you can go.*
- 3. Let me show you! If you send me a simple shot of your wall, I can use my software to show you exactly how they will look!*

ANCIENT TRADITIONS

ABOUT THE AMALFI PAPER

The Amalfi paper sheets present all uncut deckled edges, and are made of pure cotton, untreated with chemical substances or bleach.

They are still produced according to the **ancient craftsmanship tradition**, where the cotton pulp mixture is filtered and spread on the mould, manually, sheet by sheet.

This mould has a wooden frame and the watermark in the middle of a net of bronze or brass wires. The watermarks had the trademarks, that distinguished the paper-makers and the particular type of paper.
